1. CASE PARTICULARS

Case ID	CN-24817
Report No.	TNP/AICI/2026/CN-24817
Date and time of report	02-11-2026, 18:43 hrs
Police Station / District	To be filled by Investigating Officer
Section(s) of law	To be filled by Investigating Officer
Investigating Officer	To be filled by Investigating Officer
Report status	DRAFT - AI generated, pending officer verification

2. CASE SUMMARY

The case statement was analysed by the AI Crime Investigator. The system identified **1** person(s), **2** location(s), **1** item(s) of evidence and **1** time reference(s), and established **4** relationship(s) between them. Persons mentioned: Arun. Locations: Warehouse, Downtown. Evidence referred to: Fingerprint.

1 contradiction(s) flagged in the statements - see Section 6.

3. OVERALL EVIDENCE CONFIDENCE

Component	Value
Prior (baseline)	0.4
Entities identified	+0.2
Relationships established	+0.25
Contradiction penalty	-0.1
Evidence confidence score	**75%**

Score = prior + entities + relationships - contradiction penalty (explainable formula). It indicates strength of the recorded material, not guilt.

4. EXTRACTED INFORMATION

Category	Name / Description	Linked items
Person	Arun	Downtown, Warehouse
Location	Warehouse	Arun, Fingerprint
Location	Downtown	Arun, Fingerprint
Evidence / Exhibit	Fingerprint	Downtown, Warehouse

TIMELINE OF TIME REFERENCES

Time	Person(s) associated	Remark
10 PM	Arun	Flagged in contradiction

Times are shown as extracted from the statements, in chronological order.

5. CASE GRAPH AND RELATIONSHIPS

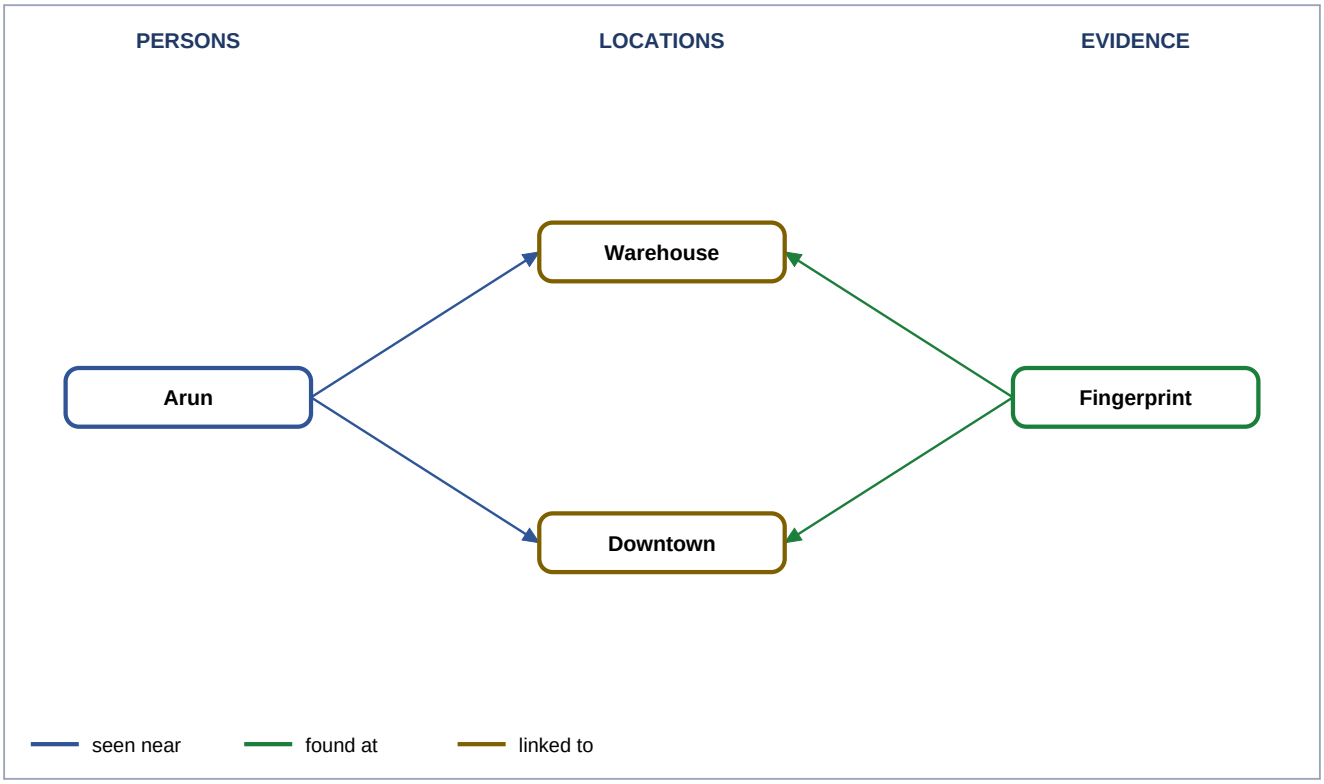

Figure 1: Case graph - persons, locations and evidence with their relationships.

Entity A	Relation	Entity B	Conf.	Basis
Arun	seen near	Warehouse	85%	Arun was associated with Warehouse in the statement.
Arun	seen near	Downtown	85%	Arun was associated with Downtown in the statement.
Fingerprint	found at	Warehouse	90%	Fingerprint was found at Warehouse.
Fingerprint	found at	Downtown	90%	Fingerprint was found at Downtown.

6. INVESTIGATION ANALYSIS

6.1 Contradictions / flags (constraint check)

#	Severity	Subject	Observation	Time
1	HIGH	Arun	CONTRADICTION FLAGGED: Arun appears linked to both Warehouse and Downtown around 10 PM. (Locations: Warehouse, Downtown)	10 PM

Result: INCONSISTENT - the recorded statements conflict and need verification.

6.2 Persons of interest - link summary

Person	Linked locations	Linked evidence	Time refs.	Flags
Arun	Downtown, Warehouse	-	1	1

Counts show how many recorded links exist for each person. They are indicative only and are not a finding of guilt.

6.3 Investigation path search

Algorithm	Path found	Hops	Path
BFS	Yes	1	Arun > Warehouse
DFS	Yes	1	Arun > Warehouse
A*	Yes	1	Arun > Warehouse

All search algorithms returned the same connection path.

7. KEY FINDINGS

- Person(s) mentioned in the statements: Arun.
- Evidence linked to Warehouse: Fingerprint.
- Evidence linked to Downtown: Fingerprint.
- CONTRADICTION FLAGGED: Arun appears linked to both Warehouse and Downtown around 10 PM.
- Overall evidence confidence is 75% after a penalty of 0.1 for contradictions.

8. RECOMMENDED NEXT STEPS FOR THE INVESTIGATING OFFICER

- Re-examine the statements about Arun's whereabouts around 10 PM; cross-check with CCTV time stamps, call records and independent witnesses.
- Verify the collection and chain of custody of the recorded evidence: Fingerprint.
- Record or re-confirm formal statements of: Arun.
- Review this report with the Investigating Officer before relying on it in the case diary.

Disclaimer: This report is AI-generated decision support produced from the text supplied to the system. It is not evidence, does not establish guilt, and must be verified by the Investigating Officer before any official use.
